SUMMARY

M.Sc. Information Technology (M.Sc.IT) student (Semester 3, pursuing) and Python/Django developer with hands-on experience building full-stack, AI-integrated web applications. Completed a 10-month AI & ML internship at Altera Digital Health, working on healthcare technology projects, plus a Django-focused training program at Techmicra IT Solutions. Skilled in CRUD-based application design, database management, and end-to-end feature development. Seeking Software Developer / Python Developer / Full-Stack Developer roles to apply technical skills and grow professionally.

TECHNICAL SKILLS

Programming: Python, JavaScript, C

Backend: Django, REST APIs, CRUD Operations, MVC Architecture

Frontend: HTML5, CSS3, Bootstrap, JavaScript, jQuery

Databases: PostgreSQL, MySQL, SQLite, SQL

AI & Machine Learning: ML fundamentals, healthcare data preparation & validation, AI-integrated application development

Tools: Git, GitHub, VS Code, XAMPP

Other: Data Visualization with R, Project Deployment

EXPERIENCE

Machine Learning Engineer (Intern) · Altera Digital Health

Oct 2025 – Jul 2026

Ahmedabad, Gujarat, India (Remote) · 10 months

- Learned and applied fundamentals of Machine Learning and Artificial Intelligence on real healthcare technology projects.
- Processed and validated large-scale healthcare datasets (hundreds to thousands of records) for data preparation and quality assurance.
- Supported AI/ML workflows and collaborated with remote, cross-functional teams using Python.

Python Django Trainee · Techmicra IT Solutions

Apr 2025 – Jul 2025

Ahmedabad, Gujarat, India · 4 months

- Completed a full-stack web development training program covering Core Python, OOP, and the Django framework.
- Worked with HTML5, CSS3, JavaScript, Bootstrap, and jQuery for front-end development.
- Implemented CRUD operations, URL routing, templates, forms, sessions, cookies, and file uploads.
- Gained practical experience with MVC architecture, debugging, and project deployment concepts.

PROJECTS

LifeLink – Healthcare & Emergency Response Platform

Python | Django | SQLite

- Built a healthcare and emergency response management platform with 4 integrated modules: hospital bed availability, blood bank inventory, donor management, and emergency request handling.
- Designed relational database models with full CRUD operations across all modules; deployed and hosted on PythonAnywhere.

AI Resume Screening Portal

Python | Django | AI Integration | SQLite

- Developed a keyword-based resume matching engine capable of processing multiple resumes simultaneously to automate candidate evaluation.
- Built secure user authentication, resume upload, and candidate management features.

DiyaOS – Terminal-Style Developer Portfolio | diya-dev.vercel.app/

HTML | CSS | JavaScript

- Designed and built an interactive, terminal-style personal portfolio with a cyberpunk/neon theme, deployed on Vercel.
- Included interactive features such as a Pomodoro timer, tech quiz, and dev joke generator.

Online Furniture Management System

HTML | CSS | JavaScript | PHP | MySQL

- Built a full-stack web application to manage furniture inventory and online transactions.
- Designed an admin panel for managing product listings and customer records.

EDUCATION

Master of Science in Information Technology (M.Sc. IT) · LJ University, Ahmedabad *Pursuing · Sem 3*

Bachelor of Computer Applications (BCA) · Gujarat University *2025 · 75%*

Higher Secondary Certificate (HSC-74%), Commerce · Vidhyanagar Girls Higher Sec. School *2022*

CERTIFICATIONS

- Git and GitHub Complete Master Class Specialization
- Generative AI: Business Transformation and Career Growth
- Generative AI Fundamentals Specialization
- Hands-on Introduction to Linux Commands and Shell Scripting
- Data Visualization with R
